WIRE WRAPPING ELVEN PENDANT 1 *****

Elegant pendant with elven shapes with doodles and the addition of a turquoise drop.

With this tutorial you will be able to realize it step by step with the help of detailed pictures and clear and concise descriptions.

MATERIALS AND TOOLS:

- Basic design
- 18 gauge metal wire (about 17,32 inch)
- 28 gauge metal wire (enough to decorate)
- 24 gauge metal wire (about 7,08 inch)
- 1 pcs 1,4 x 1 cm Turquoise drop
- Conical tip pliers
- Curved tip pliers
- Flat cut cutter (wire cutter)
- Mini anvil or steel block
- Flat hammer

1 Print the drawing at the end of the tutorial.

2 Take a 9,84 inch (25 cm) piece of 18 gauge wire and fold it in half.

3 Beat the tip of the curve you just made.

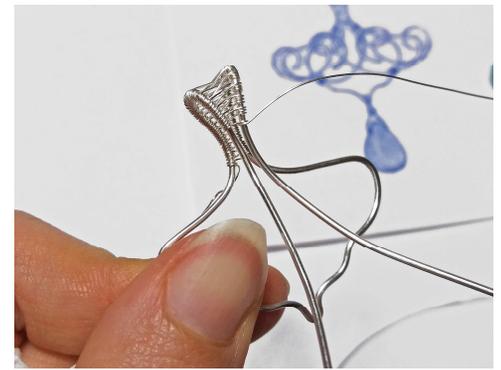

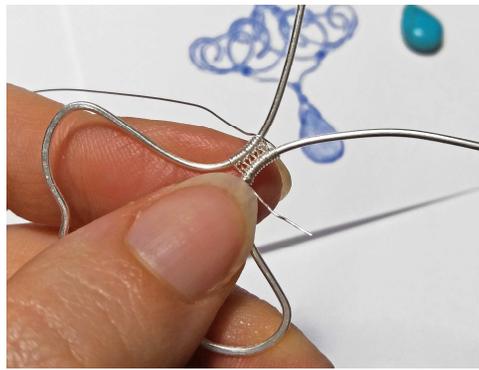

4 Enlarge the thread again and follow the pattern.

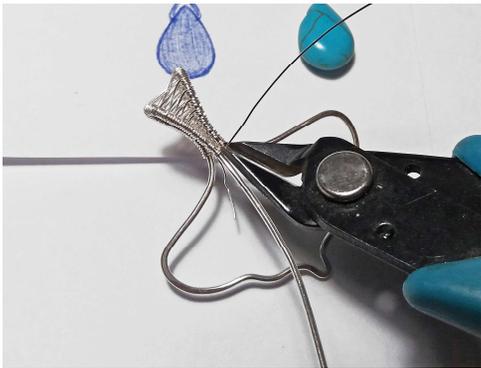

5 Flatten by beating the structure on its curves.

6 Begin to wrap 28 gauge wire (enough to decorate) by alternating three turns on one side and three turns on the other.

7 During wrapping, bend back the two wires of the external structure to create the housing of the chain and also wrap it on the back until the end.

8 Cut excess thread.

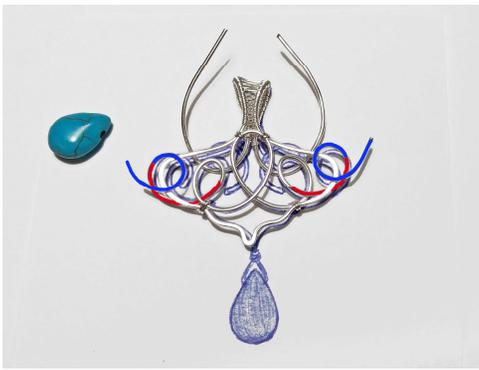

9 Fold it up the ends a little.

10 Create the internal structure with 7.5 inches (19 cm) 18 gauge wire and follow the drawing.

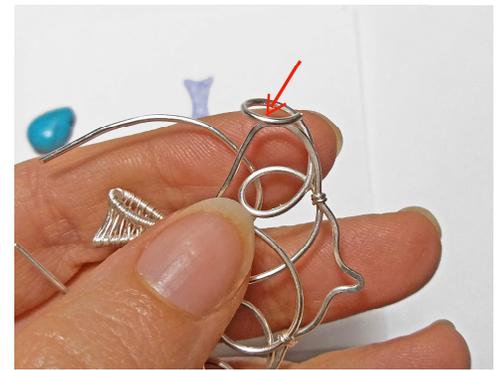

11 With about 3.50 inch (8-9 cm) 24 gauge wire, ensure the internal structure to the outer structure in four places, making two turns of wire for each part, as shown in the pictures.

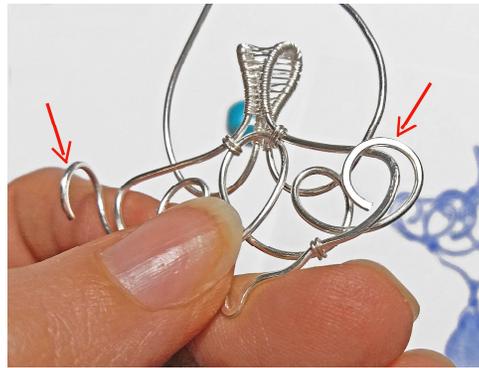

12 Bend the ends, highlighted in blue, creating two eyelets as in the picture.

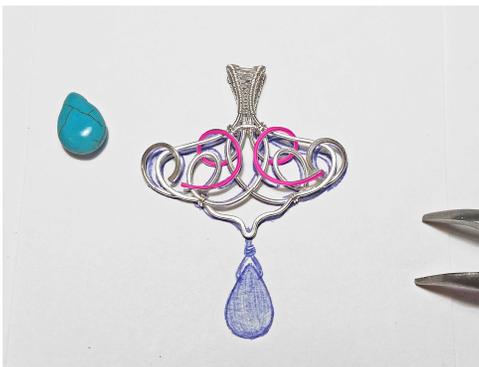

13 Cut off the excess.

14 Move the eyelets away from both sides and beat them to flatten them a little.

15 Curve and bring forward the two ends left in stand-by and highlighted in pink.

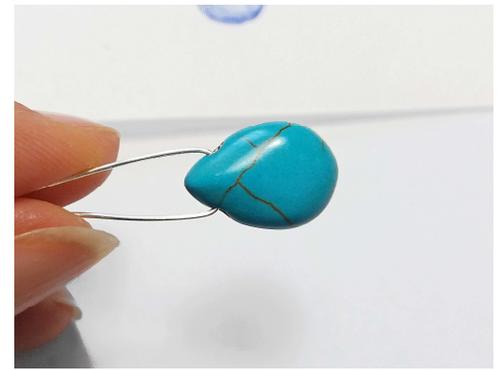

16 Cut in the point shown in the picture on both sides.

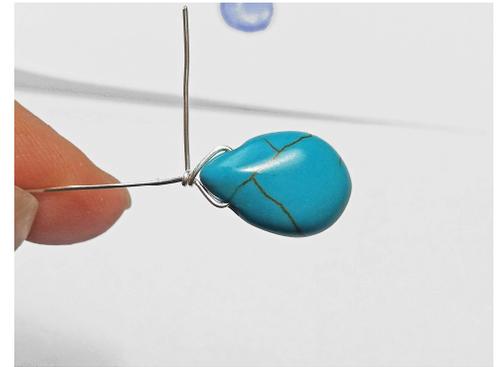

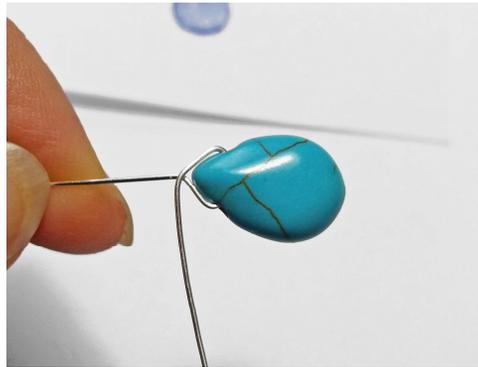

17 Move the two central ends away from the structure.

18 Beat them both to flatten them a little.

19 Insert about 3,54 inch (9 cm) 24 gauge wire into the drop and create a loop.

20 Insert the drop at the tip of the pendant.

21 Close the loop as shown in the picture.

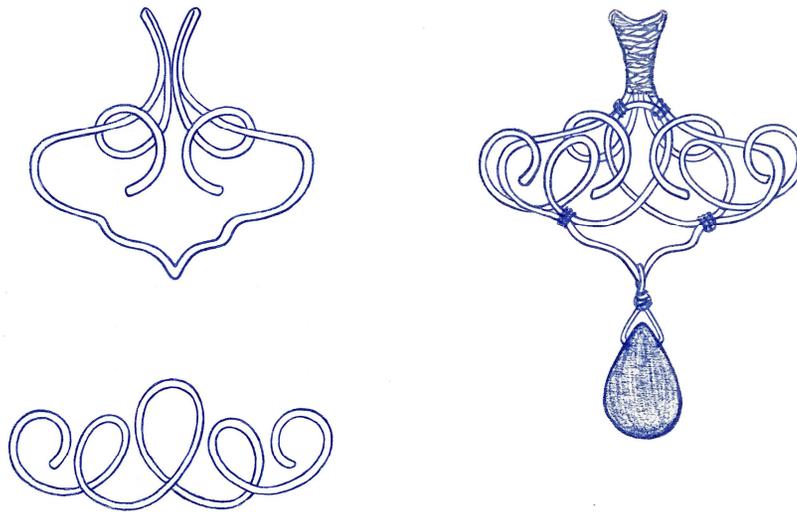

22 End.

Full-size drawing, ready to print.

Pendant dimensions excluding turquoise drop are approximately
1,46 inch(3.7 cm) height x ,69 inch(4.3 cm) width.

Pendant dimensions including turquoise drop are approximately
2,24 inch(5.7 cm) height x 1,69 inch(4.3 cm) width.

Acknowledgments

I thank all the readers of my site www.filidargento.com and all the members of the Facebook group [Fili d'Argento\[Gioielli Wire\]](#) for their support and trust.
